### INSTALL LUDIO PLAYER ON FIRESTICK 2021 UPDATE

How to update ludio player on firestick. Is mx player available on amazon fire stick. How do i get ludio player on firestick. How do i get so player on firestick.

Relax TV is a great and one of the most popular streaming apps. However, unfortunately, Relax is no longer working and it seem like it would not be back for a very long time. Though that is the case, do not worry as there are some alternatives and one amazing and great alternative to Relax is Ola TV. Ola TV, as mentioned above is a great live streaming service which comes with thousands of channels which users would definitely love and enjoy. Moreover, what is more impressive about this streaming service, is that it does not only show local channels from the US, it also provides a lot of different foreign countries such as India, Canada and UK. Keep in mind that Ola is a third party application which means that this live streaming platform could not be accessed directly on Amazon Store. This means, if you would want to access the mentioned platform, you will have to download it through the use of a Downloader app. Moreover, you would also need to install Kshaw and Ludio Player as supporting apps. We understand how confusing this could be. Do not worry as through this article, we shall guide you and provide you a step-by-step installation process. Check Your Internet Connection The first thing that you should check if you're facing the problem of streaming Ola TV is your Internet connection. Streaming breakdown mostly courses due to poor internet connection or dropdown of Internet connectivity. In such case, check your Internet cables are they connected properly?. Reboot your Modem Device, restart your FireStick as well. If still your internet connection doesn't regularized then call your Internet service provider. 2. Enable Unknown Sources If Unable to Install Ola TV is not available on the Official App Store. It means you have to sideload it from an unknown source. Installing the third-party app is not a default setting of any streaming device. You have to enable this option from the settings in the simple steps given below: On Homepage choose the settings icon Click My FireTV icon Select Developer Option Now select Unknown Sources and turn it On. 3. Update the Ola TV APK to the Latest Version You are already using OLATV for streaming and suddenly it stops working and you have checked the above two problems then Updating the apk is one thing that you should concern about. When the service upgrades its new feature, they post their upgraded version which can be installed in easy steps given below. Open the App and click the menu icon In the menu, you will see an update icon or New Update available. Click and install it to stream on Ola TV Ola TV Alternatives Since Relax TV was one of the most popular app that shut down, there is no exception that Ola TV will live longer but we can only hope so that it does.
